

GRZ Technologies Ltd. is a start-up company active in the field of energy technology. Backed by several industrial partners, we develop hydrogen storage and compression systems. Our site and the workplace are in Grolley (Switzerland) and is easily accessible by public transport.

We offer a pleasant working environment in a dynamic, innovative, and international team. We cultivate an entrepreneurial spirit and are oriented towards the development of our collaborators to achieve our ambitious goals.

Since the company is in a high-growth phase of its development, many opportunities for professional growth exist. To expand our team, we are looking for an

IT Specialist

Your primary activities in the company will be:

- Implementation and improvement of IT processes for scaling up the organization
- Managing collaboration with external suppliers in the IT domain
- Responsibility for the business IT systems including the ERP system, hardware, etc.
- Carrying out and organizing user support
- Support of machine software development team

You should have a rounded profile and ideally:

- You have completed basic education in a relevant profession and have completed further education at a technical school. Alternatively, you have a degree from a university and are hands-on oriented.
- You strive for correctness, reliability, safety, and performance.
- You are able and willing to work in a fast-paced and rapidly evolving environment and will apply your know-how in different fields as required by business priorities.
- You have excellent English-language skills. Written and oral German and/or French skills are an advantage.
- If you are still not sure whether to apply, simply send us pointers to your previous work (e.g., open-source repos, blog posts, etc.) and we will get in touch.

In case of interest, please send your application documents in electronic form to hr@grz-technologies.com. We are looking forward to hearing from you.
